

What Patients Say

Dear Dr. DiFusco,

I meant to write this sooner, time just slipped by.

You did an excellent job on my teeth. They are beautiful. I love them everyday. It has given me confidence to have such a great smile.

Thank you for your dedication to dentistry. All the staff there is wonderful also.

Sincerely,
Judy Masciangelo

Dear Dr. DiFusco,

I can not thank you enough for your patience and skill, and kindness in getting me through 2 years of work on my teeth! And your staff!!! They are a pure gift! From the moment I walked in to the time I leave- everyone has been so kind.

Most especially, I want to thank Sarajane and Lisa for helping me in so many ways. Technically you're the best.... But to also have compassionate hearts helped me get through this work,

Many blessings,
Deb French

Dear Dr. DiFusco,

Thank you very much. Your abilities and gifts are much appreciated. I am simply amazed at how beautiful (and functional) my teeth are. I feel like a new person, a person with a new lease on life. I appreciate all you have done for me and will never be able to truly express my gratitude.

Your attitude about your work is so lovely and refreshing. I find you an inspiration and hope that in time I can do my good deed for another (or two) souls. I am a firm believer, what goes around comes around. Just hope all your kindness you give to others finds its way back to you.

Your staff mirrors your kindness and professionalism. They are all lovely folks as well.

Thank you,
Susan Spano

Many "Thanks" to Dr. DiFusco for his kind and gentle treatment. My results have exceeded my expectations. I share my utmost respect for Dr. DiFusco and graciously applaud his impeccable workmanship. Also, I would like to express my gratitude to Dr. DiFusco's staff at Webster Dental Group.

I will recommend Webster Dental Group for many years to come.

Sincerely,
Janice L. Anderson

I work with the public, so my smile needs to look good. I also travel a lot, but Dr. DiFusco was able to do all this work around my schedule. He's a true artisan. Now one of my good friends is having some cosmetic work done with Dr. DiFusco.

Matt Orlando

Dr. DiFusco,

You were a ray of sunshine on a very dismal day. Thank you so much for the collection of Rod's best. I played the CD's all evening. Great songs!!!

Your kindness and thoughtfulness will always be remembered. It's good seeing you again.

See you Thursday A.M.

Sincerely,
Barbara Gester

How did you know I love Rod Stewart???

Dear Jerry,

I want to thank you again for fixing "Humpty Dumpty". It was a pleasure to meet all your staff. They are fantastic. Your team is the best. My upper right and lower right arch still give me some discomfort, but I'm sure it will pass.

I am grateful that you took me as a patient,

Love,
Pat

Dr. DiFusco's work is impeccable. He artistically color matched my veneers to my new bridge and my natural teeth. Everything matches without looking fake.

Gail Russell

Thanks for having such a great "chair-side" manner. If you ever need a referral or reference don't hesitate to ask.

Jeff Peden
P. S. I was impressed by the headphones – they were nice!

Dear Dr. DiFusco,

I'm writing in an effort to convey my kindest thoughts to you and your staff. Words can only begin to express the gratitude that I will forever share with you. From the very onset of my dental procedures, I never could have imagined the results that you allowed me to achieve.

Upon my initial visit, you kindly explained, to me, all options available regarding my teeth. Further, you assured me that any, and all, procedures would be painless, which I candidly thought was not possible. During my initial visits, I was overwhelmed, anxious and nervous due to some prior dental experiences. However, you and your staff quickly, and totally, alleviated all of my fears with the wonderful level of care that you extended.

My comfort throughout each of the procedures was truly amazing and vastly exceeded my initial expectations. You and your dedicated staff made a tremendous impact on me, one which I will never forget.

With each day and each smile, the results and my new teeth are increasingly amazing to me. This has been an accomplishment that I could never have believed to be possible. My only regret is that I did not make a phone call sooner to Webster Dental Group.

Thank you very much, as well, for the letter and photos, showing the before and after results. I continue to share them with family and friends, who remain as equally amazed as me. Also, with great enthusiasm, I will continue to recommend family and friends to your practice.

In closing, I would like to applaud, and reiterate my heartfelt feelings towards you and your staff that attended to my procedures. Each of you was wonderfully compassionate and deserve great recognition for your integrity, care and professionalism.

I will always remain grateful to you, Dr. DiFusco, and your fine staff that attended to me.

Dear Gerry:

Enclosed is a picture of Carly Lewis that is part of her professional portfolio. She wanted to be sure you got a copy so you could check out her perfect smile. She has moved to New York City so she can pursue her dreams of performing. She is driven to be the best and is willing to put in the time and effort to be successful.

She has a fantastic smile thanks to your efforts and there will be no stopping her now. We'll keep you informed of her progress and expect we'll be traveling to the City to see her perform in the coming New Year.

You have changed her life. Her confidence, beauty, talent and smile will help her achieve her goals. Thank you for all you have done for our family and friends. You are truly the best. How lucky we all are to have you a part of our lives.

Cordially,
Di Cosman

Dear Donna, Sara, Linda and to all the young Ladies on the Dental Staff; I should know all your names by now, but being such an airhead, I don't.

Sara, thank you for calling and for the lovely roses, they are in full bloom. I have never been so honored. Dr. DiFusco has the sweetest and most knowledgeable young ladies working for him. You all deserve applause and congratulations for all the wonderful work you perform.

Thank you all again and yes, I do love my new teeth. Dr. DiFusco has performed another one of his fabulous miracles.

I am enclosing a check and thought perhaps you all could have lunch on me.

Most sincerely,
Love, Elsie Fletcher

Dear Dr. "D" and Team:

I could not be more pleased with my teeth. I cannot stop looking at them in the mirror or thinking about how good they look. It is a good feeling to smile and not have to cover my mouth. It gives me confidence knowing they are even and sparkling white. I smile a lot lately.

All of you are good people. I felt surrounded by experts who cared about me. Somehow providence led me to you all and I am grateful. I could not have asked for better treatment or a better outcome.

Yours truly,
Mary Porretta
a/k/a Cheshire Cat

I am writing about the excellent job Dr. DiFusco did on my dental implant. I was in a car accident almost 8 years ago. The air bag went off in my face and the impact knocked my front tooth out. I immediately called Dr. DiFusco. He saw me right away and recommended a dental implant. I was given a temporary tooth, a "flipper" to wear until my new tooth was to be implanted. The reason I say this, is because I can't believe the difference in self confidence, and the ultimate convenience of having my dental implant instead of a fake tooth that I had to put in every morning and take out every night.

I love my dental implant! It is just like having my own tooth!!! I can't believe the difference from using the flipper. Dr. DiFusco is an excellent dentist. Although it is not the easiest procedure in the world, Dr. DiFusco is very gentle and he really knows what he is doing. He makes the procedure as painless as possible. He is very kind and makes you feel very comfortable. He answers all your questions and he realizes this is all very new to you. People often tell me what nice teeth I have and they have no idea that my front tooth is a dental implant. I am so glad I got this dental implant and I would absolutely recommend it to anyone, just as I have always recommended Dr. DiFusco to everyone I know because he is an excellent dentist!!!

Sincerely,
Marilyn Carson

For thirty years, I have endured the inconvenience of an upper partial. Then in July 2006, I decided to inquire about the possibility of implants. Fortunately, I was directed to Dr. DiFusco. After much discussion and consultation about the benefits of implants, I decided to go forward with the procedure and I have been very satisfied.

The implants have literally changed my life. I am now able to eat virtually anything with total comfort and confidence, without the fear or embarrassment of a partial coming loose or breaking. I also tote a bright smile thanks to the color choice for my new teeth.

Annette Truby

P.S. For those who fear the dentist chair, I want you to know that the procedure itself was painless and Dr. DiFusco and his assistants made me very comfortable throughout the implant process.

I love my new implants and veneers that Dr. DiFusco has given me. The dental work that I had done was instrumental in giving me a much needed confidence boost, which has certainly influenced my professional career. I would recommend anyone who is in need of such work to have it done immediately to experience a similar burst of improved self esteem and well being!!!

Susan Spano

I can't say enough good things about Dr. DiFusco and his wonderful staff at Webster Dental Group. I'd always been self-conscious about my smile and had spent a lifetime masking it. Other attempts at cosmetic improvements had left me disillusioned with the process and disappointed with the results. Finally, at age 50, I decided to try one last time. Lucky for me, I found Dr. DiFusco, who turned out to be an artist as well as a technical wiz. In just a few months, he achieved exactly the result I'd always hoped for an attractive, natural looking smile. Maybe the highest compliment I can pay Dr. DiFusco is that I now flash my new smile confidently and without hesitation. He's quite simply, the best.

Most dentists send you to a specialist for the challenging dental procedures like root canals, implants, bonegraphs and tissue transplants. My family had all of these procedures successfully completed by Dr. DiFusco at the Webster Dental Group. He is the best!

I have never been to a truly great dentist until I had work done by Dr. DiFusco. I now have a fantastic smile of a lifetime that I never dreamed was possible.

I am very happy with my decision to have veneers and have them done by Dr. DiFusco. They are beautiful. I am proud of my smile now and no longer reticent to have my picture taken smiling. Now, my teeth are straight, white and natural looking and just as important to me, I now have a comfortable, natural feeling bite. I think this is why I no longer grind my teeth at night. The procedure was painless. I am very glad I had this done.

Myra Olm

"Dr. DiFusco and his staff gently moved me through my first dental implant. I was very happy with the results, and impressed with their skill and knowledge.

Best regards,
Joyce Paxton

Many "Thanks" to Dr. DiFusco for his kind and gentle treatment. My results have exceeded my expectations. I share my utmost respect for Dr. DiFusco and graciously applaud his impeccable workmanship. Also, I would like to express my gratitude to Dr. DiFusco's staff at Webster Dental Group.

I will recommend Webster Dental Group for many years to come.

Sincerely,
Janice Anderson

Implants can and will change your life. I find myself talking and smiling more often. Implants feel so natural; there really isn't any "getting use to them."

Dr. DiFusco and staff genuinely care about their patients, and are there for you every step of the way. The BEST part for me – my implants have made it possible for me to chew gum again after 20 + years!!

Dental implants are for you; starting your day off with a smile will make for a happier "you"!

JoAnn Gefell

I didn't take care of my teeth and gums, as I should have growing up. As an adult, I've needed extensive dental care. The restorative treatments (implants, crowns, bridges, periodontal surgery) I've received at the office of Dr. DiFusco have been of the highest quality. I've got my dental health back and, cosmetically; my smile has never looked better. The comprehensive hygiene program provided by his office helps me keep it that way.

John Chiazza

I have been very pleased with the dental implants provided by Dr. DiFusco. The implants have been trouble free and have provided a strong chewing capacity for me, which would have been difficult to achieve by alternative means.

Olaf Muller

The dictionary describes an implant as "sowed" as in seeds," "to set in, to insert".

To me **IMPLANT** as used in dentistry, is a "lifesaver". When it becomes necessary to use implants because there are no existing, sound teeth to attach other dental prosthetics, it literally becomes a lifesaver. In my world, teeth are much more important than instruments to chew food...my teeth are part of my personality and **IMPLANTS** just saved the day for me.

Thank God for **IMPLANTS**, Dr. Gerard DiFusco and his competent Staff!!

Mrs. Shirley DePaolis

The implant that Dr. DiFusco did for me is unbelievable! I can't tell which tooth it is! I was a little hesitant at first, but now I'm so glad I had the implant done; my teeth look beautiful and I feel like a new person. Thank you Dr. DiFusco and staff for your very professional and kind treatment of me.

Sincerely,
Helen Tucker

I had a very problematic molar that became infected even after two root canals, so after talking with Dr. DiFusco, I decided to replace it with an implant. Dr. DiFusco not only made the whole procedure entirely comfortable, but the process also took less time than I anticipated. My implant looks and functions as well or better than any molar in my mouth.

Sally Dixon

When my oldest root canal tooth broke off at the gum line, I was seriously upset. The implant and crown option done at Webster Dental Group was so great I decided to have my entire mouth done with the skills of Dr. DiFusco. I have a smile I never expected and have sent many friends and family to have life changing dental work done at the WDG. It is the best thing I have ever done for myself!!

Diane Cosman

After years of frustration with "Bridges" and "Partials", Dr. DiFusco achieved for me, comfort and stability beyond my expectations. I love Dr. DiFusco. I love my implants. I would recommend him and I have.

Gloria Delaney

The "implants" I have received are the best present I ever gave to myself. I have a "Kodak" smile again.

Joanne Wegman

I am pleased and grateful for the dental implants that I have received from the Webster Dental Group. Without them I would have had to have a lower denture years ago. My implants have been in place for many years, and show no signs of failure. I would certainly recommend this Group to my family and friends.

Deane Thomas

Dr. Gerard DiFusco is one of the unique, ultra qualified dentists, able to perform almost any darn procedure you may need. Having a dentist like Dr. DiFusco is a privilege. His friendly, professional manner makes the experience a big change from old-fashioned offices. His expertise and compassionate care combined makes him one of the dentists in the U. S. that other dentists go to see for their treatment.

Charles Martin, DDS, MAGD, DICOI, FIADFE
Author, lecturer, consultant and private practitioner

What other Doctors Say

If you live in the Rochester, New York area, I can highly recommend Dr. Gerard DiFusco. He is an expert in implant dentistry and reconstructing mouths to a natural feel and beautiful look. Dr. DiFusco has studied with the premiere pioneers of advanced Implantology from around the world. His patients and colleagues alike recognize his experience, expertise and gentle touch. See him and experience the difference.

Richard M. Feinberg, DDS
LaJolla, CA

"I've worked with Dr. DiFusco for over 10 years as a dental laboratory owner. My job is to create dental restorations like crowns, veneers and bridges using the impressions and models provided by Dr. DiFusco.

Dr. DiFusco uses the highest degree of skill and technique in his treatment of his patients. As a dental technician I see the quality of his work on a daily basis. The high quality and effort on his part provides the technician with everything they need to provide the highest quality restoration.

As a dental laboratory owner I value Dr. DiFusco. I know from experience that he always expects the very best from himself and from the dental technician. The patient always benefits from that level of care.

I see the work of many Dentists and I would not hesitate to recommend Dr. DiFusco to my friends and family."

Scott Dyer CDT
Dyer Dental Laboratory, Inc.
Las Vegas, Nevada

To Whom It May Concern:

Root Laboratory has enjoyed a solid and extremely professional working relationship with Dr. Gerard DiFusco for over 24 years. He has a high level of expertise with extensive training from the pioneers of dentistry: Dr. Leonard Linkow, Dr. Carl Misch, Dr. Michael Pikos, Dr. Boyd Harris and Dr. Duke Heller. Dr. DiFusco is very diligent and detail-oriented when dealing with his patients' dental cases and has restored many very complex and advanced cases. He has taken hundreds of hours of continuing education courses such as bone grafting, sinus augmentation and advanced esthetics. Dr. DiFusco is proficient in many aspects other than just general dentistry such as oral surgery, endodontics and periodontics. He has placed all types of modalities of implants: root form, blade form and subperiosteals. Dr. DiFusco is an outstanding practitioner and we look forward to continuing our partnership.

Team Root and Staff

What Staff Say

I have been involved in the dental field for over 40 years and have worked as a dental assistant in several different offices. I have known and worked with Dr. DiFusco for 25 years. His dental skills and knowledge is making our office known as one of the finest practices in this area. Because of continuing education and his teaching every day, our staff has become highly skilled in the dental field.

Dr. DiFusco is a very caring individual, who always has his patient's well being first and foremost. It is wonderful, at the end of every day to know we have done our best to give patients healthy and beautiful smiles.

We have a wonderful staff and great atmosphere here. It is a pleasure to come to work every day.

Sarajane Kleinhammer

I have had the pleasure of working for the Webster Dental Group for the past 21 years. I came into the practice with no dental knowledge and I now know so much from the learning and teaching of Dr. DiFusco. With over 100 + years of experience among our dental staff, I can truly say we are competently educated in all aspects of the dental field. We all genuinely care about your health and well being. Dr. DiFusco is my own personal dentist. He is truly a caring; gentle and kind Doctor that you would want treating your own dental needs.

Lori A. Osterhout

When I was a young adult and trying to decide on a career, my dad's advice was two fold. He said first find something you love to do and then find a way to get paid to do it.

I took his advice, and have been lucky enough to work with Dr. DiFusco and his very wonderful staff for the past two years.

The level of dental care, artistry and vision that Dr. DiFusco provides his patients is truly superior to anything I have ever been a part of in my many years in Dentistry. Dr. DiFusco's dedication to continuing education and cutting edge technology for both himself and his staff, is only one of the many benefits his patients receive.

I am so very honored to work with Dr. DiFusco and his staff of skilled, compassionate, funny and dare I say beautiful people.

Bridget Ryan Graves

I have worked for the Webster Dental PC since January 2003. I am one of three Dental Assistants. It is the most amazing dental practice. Dr. DiFusco is so knowledgeable and his techniques are so advanced. It is such a joy to come to work everyday because I know I am always going to learn that we have the ability to completely change someone's smile.

Eileen Catone

I have worked with Dr. DiFusco for almost 25 years, and in that time I have seen many beautiful, bright and healthy smiles pass by my desk. Dr. DiFusco is the most caring, considerate and knowledgeable Dentist that I know of. He treats each patient as if they were a member of his family when rendering treatment. People are constantly amazed at his ability to achieve what they want and more.

Dr. DiFusco encourages continuing education for his staff and for himself. He has often said that if we come away with one idea that will help our patients or us, it is well worth it. We all work as a team to render the best quality service to each individual that comes through our doors. It has been my honor to start my day with my "second family" and hope to continue for a long time.

Linda Smith

Coming to work everyday is a joy and an honor. Working at the Webster Dental Group is the most educating and rewarding experience of my 33-year career in Dental Hygiene. Dr. DiFusco encourages constant continuing education as well as the "team work" concept. Aside from being caring and sensitive to each patients' individual needs, Dr. DiFusco is extremely well educated, a perfectionist and truly an artist in the dental field. Not only does a patient at Webster Dental Group benefit from being treated by a courteous and professional staff; the end dental result is a look that they can smile about for a lifetime.

Bari Koch

My name is Senada. I am a dental assistant and I have been at Webster Dental Group since 1998. I am originally from Bosnia and I have been lucky to be a part of the Webster Dental Group and learn from the best, Dr. DiFusco and my co-workers. We are like a big family and we work as a team and treat our patients like a part of our family. Dr. DiFusco and our team are constantly striving and we educate ourselves to provide the best care for our patients. Dr. DiFusco is on top of the new technology in dentistry and I always like to say that he is truly an artist that changes people's smiles and lives.

Senada Strujo

TO OUR OUTSTANDING DENTIST

I am remiss in expressing my appreciation for your service to Stanley at MCH. He was so impressed that you would make that effort for him. I am also impressed and wish to thank you for your generosity in sharing your time and your dedication to assist Stanley.

I apologize that the hospital made it so difficult however, if you go right into Stan's room without announcement I am sure they would hardly notice.

We are deeply grateful.

I too appreciate my overwhelming and treasured spa gift. I have little time to enjoy it; however I can not wait for the opportunity. Thank you for this beautiful and thoughtful gift and your fine dentistry for me.

As you know, I have spent the greater part of my life in dental chairs. I am indeed looking forward to a time when my visit is mainly for cleaning.

Thank you and please realize my gratitude is sincere.

Regards,
Anita Spoor

To: Dr. DiFusco and Staff: Webster Dental Group

From: Thomas G. Bahr

Concerning: My Dental Experience

I am writing this testimonial letter for two reasons. Firstly, to thank Dr. DiFusco and the entire staff at Webster Dental Group for making my dental experiences a positive one.

Secondly, to possibly assist other patients who may share a similar dental history to mine.

My earliest (6 or 7 years old) memory of having dental work was when the Eastman Dental School would send out their dental students to grammar schools to clean our teeth and do cavity drilling. They used the old foot pedal driven drills. There was no pain medication administered then. The word "pain" doesn't describe the agony we went through.

So from my earliest days "absolute fear" imbibed my dental experience. Needless to say my visits to the dentist were as few as possible. Putting up with "tooth pain" was far better than going to the dentist. Only when it became totally unbearable would I make an appointment.

Before my first appointment with Dr. DiFusco, I had not seen a dentist for at least 20 years. Tooth pain had become a part of my daily life but it had reached the unbearable level.

It turned out I had to have three root canals, needed numerous cavities drilled and a major cleaning done. Throughout my entire experience with Dr. DiFusco and his staff the only pain I felt was minor pricks of the needles when pain medication had to be administered.

As appointments passed, I began to relax when in the chair and my trust level grew to the point that I began to "almost" look forward to them. I got to see and "chit-chat" with everyone there.

One more thing before I end this testimonial, I had always panicked when the saliva and liquid would build-up in and on the back of my throat. And I mean panic! Not so with the hygienist or with Dr. DiFusco. During cleanings the hygienist let me hold the suction which put me in total control of removing the liquids. Therefore – no panic. When Dr. DiFusco did the work on my teeth he put a device called a "dam" in my mouth that prevented the liquids from building up in my throat. At any time I began to feel as though I was not going to be able to breathe I would put my hand up and he would stop to let me use suction, swallow and/or stress out. Again – no panic.

In closing, I just want to say that I will be coming to the Webster Dental Group for my dental needs and preventative care.

Living without "tooth pain" is a fantastic experience and having confidence and trust that my future dental Experience will be positive is also pretty fantastic.

Thank you Dr. DiFusco and Staff!!

Respectfully,
Thomas G. Bahr

Att: Dr. G. DiFusco:

As a New Year begins it is my custom to sit and review what I consider to be "significant events" in my life during the past year. The purpose of this exercise is to allow me to relive the enjoyable experiences, and to learn from my mistakes!

I consider August 5th to be "significant" because it was on that day that I had my initial consultation with you. I had called for an appointment because I was aware that my negligence regarding timely dental care was resulting in pain and dental discomfort and, perhaps, was threatening my overall health.

You will recall conducting a thorough examination of my mouth and teeth, assisted by your well trained and competent staff. Following this, you invited me into the conference room where you were able to outline my numerous dental problems using graphics as needed. Then you outlined several options available toward their resolution including costs, and the inherent health risks for further negligence. After this discussion you suggested that I take a few days to assimilate the facts and then react. This I did, and scheduled the first treatment session for August 18th.

August 18th will be remembered as a day spent in a "DiFusco Dental Operatory." You and your assistants Worked tirelessly, over several hours, addressing my multiple dental problems. Amazing to me was the very minimum amount of discomfort that I experienced during the numerous procedures!

August 26th was a near repeat of August 18th, but not quite as intense. Once again I did not experience the pain nor the discomfort that one would normally expect, while undergoing dental procedures. At the conclusion of this session you declared that the "heavy work" (i.e. surgery, extractions, root canals, implants) was completed, we were now in a position to proceed toward the office motto of creating a "Beautiful Smile" for me.

During the months of September and October I made additional visits to the dental office for photos, measurements, fittings and other "tweaking" before receiving my new bridge/crowns in December, just before departing Rochester for our winter residence in Florida. I am pleased to report that my mouth and "new" teeth continue to feel comfortable. I have been smiling up a storm! And, when I return to Rochester in the Spring, I'm looking forward to completing my remaining bridgework. Then I intend to enter any and all contests that require a smiling countenance!

In conclusion – a sincere "Thank You" to you Gerry DiFusco, and to your professional staff (Sarajane, Dianna, Senada, Linda, Bridget, Lori and Bari). Your medical/dental competence, courtesy, and general kindness toward this patient are deeply appreciated!

Please feel free to offer my name as reference to anyone who is considering your dental services. I would be most pleased to share my very positive experiences with them.

Regards to all.

Yours very truly,

Bob Brown

December 2009

Dr. DiFusco has been my dentist for almost ten years. Having grown up with dental care that left me a frightened adult, it was difficult to find a gentle, caring dentist that listened to my concerns and addressed the "fears" that carry over to proper dental care as an adult. Dr. DiFusco has done both.

During my routine care and cleanings, having had a couple of crowns done in some teeth, my dealing with Dr. DiFusco, has been comfortable and informative. They answer all of my questions and explain all procedures to me thoroughly. Every member of his staff goes out of their way to make the patient feel at ease.

Early in 2004, Dr. DiFusco suggested that veneers would improve the appearance of my front teeth. I was hesitant!! Would they look natural? Would people-or my students-think they were fake? What if I don't like them? Dr. DiFusco explained the procedure to me and showed me pictures of other patients. After much thought, in 2005 I had six veneers placed on my front teeth. What a difference!!! They are perfect! Because of Dr. DiFusco's attention to detail, they are natural-looking and well-matching to my other teeth.

So many people said, "Did you cut your hair?", "You look great, did you lose weight?", "There's something different about you." My students said, "What a nice smile you have." What a thrill! I looked great in a natural way! Based on my positive experience with my first veneers, I continued with four additional veneers in 2009. Now I have a complete, beautiful smile that will last forever and looks like it has always been there!

Dr. DiFusco, you're the best!!!!

Kathleen M. Johnson

When I first realized that I had an opportunity to get my tooth replaced that been missing for over twenty years, I didn't know how to take it.

It was a blessing come true; I would finally be able to smile with confidence. I couldn't believe it was happening. The man who did the actual work had it done so fast and pain free.

The Dentist and his staff have to be some of the most professional people I have ever met.

Everyday I am looking in the mirror at myself. I just can't believe that this has finally happened. This experience has been such a blessing and it is a great feeling to know there are still good people like Gerry and his staff. Thank you.

Anthony Richardson

Since I was in my very early twenties, I have had several gaps in my mouth where molars had been removed. They made me extremely self conscious about my smile, not to mention it made eating slightly difficult. I came to Dr. DiFusco's office looking for help, and he knew just what to do. He recommended dental implants, and several months after meeting him, I am proud to show off my smile. The implants look, feel and work exactly like real teeth, and they will be in my mouth for years. I am very impressed with everything that Dr. DiFusco's office did for me.

Nicole Cookinham

Dr. DiFusco has been my dentist for 12 years and a recent visit to him due to a medical emergency is illustrative of my experience with him. I fell in the early morning hours in my bathroom and my face struck the side of the bathtub. I suffered serious facial injuries, including several fractured teeth. Dr. DiFusco cleared his calendar in order to treat me immediately. He, along with his extremely capable assistants, worked on me exclusively for a period of four hours, and, as a result, I was able to talk, smile and eat without discomfort. I felt no pain, discomfort or anxiety throughout that procedure or at any other time that I have been in his care.

Dr. DiFusco, my "painless dentist" is a highly skilled and compassionate professional and I give him my unqualified recommendation.

Kathryn C. Morgan

Dear Dr. DiFusco:

You and your wonderful staff are to be commended for your professionalism, which emanates from an atmosphere that is conducive to Doctor/Patient relationship, which is obvious on your first visit.

There is always an aura of patient's comfort at all times during the dental procedure and very much appreciated. The follow up the next day by your staff, RE: the patient's condition, is a remarkable gesture.

Again, thank you and your staff for a very painless experience.

Sincerely,

Howard Williams

At 67 years old I was diagnosed with bone loss and I couldn't wear my lower denture. Dr. DiFusco, who is a professional in cosmetic dentistry, was able to put in a subperiosteal implant, which is an over the bone implant. Dr. DiFusco at this time made a lower denture that snaps on my implant so my lower denture won't move.

Dr. DiFusco is such a real caring, gentle and skilled Dentist, that a few weeks later I agreed to have implants on my upper jaw.

Dr. DiFusco and his staff members at Webster Dental Group are the most considerate and thoughtful group you will want to meet.

Thanks to Dr. DiFusco, I can speak clearer, smile more and eat an apple without having my dentures moving.

Marie Mathieu

Always a bright greeting smile, competent, professional, motivated caring and helpful. That is a very good description of everyone in Dr. Gerard DiFusco's Webster Dental Group, also known as the Webster Smile Center. Everyone has a wonderful smile and the smiles are contagious and envious. Yes, envious of how wonderful their teeth look, bright and well cared for. How could I say no? Yes, I would like my teeth to look just like theirs but maybe not quite as perfect because it would take almost a miracle to get me there. So facing reality and then confronting the trips it would take it was a very last second decision. Go for it. And that they did. The preparation, the planning, the x-rays, cleaning and the process, all of it was well thought out and planned out. Was there a light at the end of the tunnel? Dr. DiFusco laid out the plan, answered all questions with pictures to prove it. The diplomas in the hallways are subtle but the proof is there. I have to say it, Dr. DiFusco is a perfectionist. But then again, that's the benefit to the customer and I can't really complain about that. So the light at the end of the tunnel got closer and closer and I finally got to it. With each step along the way it seemed like a long journey, but it went by fast.

The end. What a joy to be able to smile without being self-conscious, have confidence in the durability of the teeth in your mouth because you have had the best care there is.

Thank you Dr. DiFusco.

To the staff, yes, I know all their names because they all help with setting appointments, reminders, managing claims forms, the great hygienist and the caring dental assistants. Class act! A great team.

Thank you, each one of you, and all of you!

Vic Unzer

"Doctor"

Just wanted to thank you for the work you did on my teeth. It is to bad they don't give out Gold Medals for your Dentistry.

God Bless You.

Betty Bowman

Dear Dr, DiFusco & Staff:

I would like to thank you for everything. You are a wonderful group of people.

Dr. D., I just love my smile, I went back to work on a full-time basis and even though it cramps my social life (ha!) I am still smiling away thanks to you.

You have a great team. Everyone made me feel so relaxed and comfortable. You guys get it; your patients do come first.

Thank you so much for the Rooney's gift certificate. We had a delicious meal and fun night. All the best to the Webster Dental Group.

Nancy Carson

Dear Dr. DiFusco,

It has been a month or so since my final visit. The work you performed on my teeth is nothing less than spectacular. The whole experience was extremely positive. Even though I had extensive work, your use of temporary teeth, allowed me to leave your chair after each visit, without looking as though I was a Halloween pumpkin. Your dental techniques were flawless, from developing a course of action to meet my needs, reengineering and repairing work done by another practice, to administering painless Novocain injections. Your dental equipment is "state of the art", and your facilities are immaculate.

Your staff is obviously "hand picked." They are always pleasant, helpful, knowledgeable and extremely professional, further enhancing my experiences with your practice.

My wife cannot believe the difference in my smile. Thanks to you I have a renewed confidence in my appearance and interactions with friends and work associates. As I have told you on several occasions, I say again.....**YOU ARE THE GREATEST!**

Regards,

Jim Kay

I am writing this testimonial because I have been very impressed with Dr. DiFusco and his entire staff.

I am thrilled I finally found a dentist who is extremely professional, great at what he does who is extremely Professional, great at what he does and empathetic to the needs of his patients.

I have referred my friends to Dr. DiFusco because it seemed that several of us were avoiding the dentist or dreading our appointments. I did both of these things.

All of that changed, however, once I started going to Dr. DiFusco. I feel well cared for both before, during, and after my visits. Everyone always makes sure I am relaxed and comfortable...something I never was at any dentist!!!

Dr. DiFusco and his staff have also always been available to answer my questions or concerns (even at 7:15am!!!) I totally trust his judgment on how to address problems with my teeth.

After several procedures and one "act of Congress" to save my tooth (which most dentists would have Pulled). I give Dr. DiFusco and the Webster Dental Group my highest recommendation. My teeth have never felt or looked better. I am happy to spread the word.

Sincerely,

Luanne Gala

Some people get very nervous when they have to go to the dentist, especially if it's one they have never been to before. Unfortunately for me, I was in this position.

For some time, my two upper front teeth seemed to be changing their position in my mouth. It was affecting my speech, my smile and my ability to play my clarinet and saxophone. I knew the day would come when I would have to do something about it.

As I was pondering my next move, I received a flyer in the mail from Dr. DiFusco's office explaining various procedures that would seem to solve the problems I was facing with my teeth. I promptly called the office and made an appointment. However, my fear of going to the dentist persisted.

The night before my scheduled appointment, Dr. DiFusco called me, at home, and asked me if I had any Questions or concerns about my next day visit. We talked for a few minutes, and at this point, any fears I was harboring about going to the dentist began to disappear.

After several appointments, I now have six perfectly straight upper front teeth, a beautiful smile, and I can play my clarinet and saxophone with ease. All of this was accomplished with a minimum of pain and discomfort. One of the members of his staff called him an "Italian artist". I certainly concur with this assessment.

Oh, and incidentally, Dr. DiFusco has become my new dentist.

Jim Nenno

Hi Everyone –

I'm a relatively new patient here at Webster Dental Group, but I have to say that from our first meeting I never felt more at ease in a medical office than in this one. In my first phone call to set up an interview I was treated with respect and friendliness.

When I arrived I was again treated like a guest. Dr. DiFusco talked with me, understood the problems and has lived up to everything he said he would do. He is kind, gentle, funny, interesting, caring and concerned. When he says he won't hurt you he means it – in every way.

Thanks to Dr. DiFusco, I have healthy teeth and gums and some beautiful veneers of which we're all very proud. I love to smile and show off my beautiful teeth.

Thanks Dr. DiFusco and everyone at Webster Dental Group, for your kindness and friendliness. I can truthfully say I love coming to see you.

After much research and attending a number of seminars about implants I was most impressed by Dr. DiFusco's presentation, his confidence and guarantee of satisfaction that he would do whatever was necessary to satisfy me.

I couldn't be more pleased with my new mini implants. After so many years and so much money spent on numerous dental procedures that constantly needed reworking, I now feel that my problems are finally solved. My implants look great and feel natural. I can now eat all the foods that I was not able to eat before and I am happy to show off my smile.

Most of Dr. DiFusco's staff have worked with him for many years resulting in a well coordinated team that made me comfortable and confident.

When all is said and done Dr. DiFusco came through with flying colors. The care and consideration I received was outstanding. Dr. DiFusco extended himself after each visit by personally calling me to see how I felt. He also assured me that I could call him at anytime I had any questions or concerns. I recommend him without any reservations.

Dear Dr. DiFusco,

When I was growing up, there was never any talk of braces to help my malformed teeth. They have been a source of embarrassment as well as being quite self-conscious during daily activities.

After discussing my options with you and proceeding with their repair, I am more than pleased. Smiling is now becoming second nature and very comfortable. You did excellent work and I am very appreciative.

You and your entire staff are to be commended for professionalism, caring, understanding and being very supportive. From day 1, I was made to feel relaxed and that my questions and concerns were relevant. Many thanks to all of you very much.

I look forward to our working together for some time.

Sincerely,

Raymond E. Huetten
